RE: Johnson Utilities Company: Procedural Order
Docket No. WS-02987A-04-0288

Dear Mr. Johnson:

Pursuant to the Procedural Order Dated June 2nd, 2005, Johnson Utilities is submitting the ADEQ Approval of Construction for the Morning Sun Farms Well No. 1. The ADEQ approval was issued June 03, 2005 and has been attached hereto as Attachment 1. It is our understanding that with the submittal of this Approval of Construction, Staff's concern regarding Johnson's water production capacity should be satisfied.

In addition, we have attached copies of Johnson Utilities' ADEQ applications for Approval to Construct Crestfield Well #1 and Crestfield Well #2. Johnson Utilities submitted these additional well applications in an effort to anticipate future growth within the existing and proposed CC&N area. Crestfield Well #1 and Crestfield Well #2 were designed to add 1000 gpm each to Johnson Utilities PWS No. 11-128. Existing pumping recordings in the immediate area support this design. The ADEQ applications were made May 26, 2005, and have been attached hereto as Attachment 2 and Attachment 3 respectfully.

Additional ADEQ well applications will be provided to the Commission in the future. Should you have any questions or concerns, please do not hesitate to contact me. Thank you for your time and consideration in this matter.

Sincerely,
Johnson Utilities, LLC

Daniel Hodges

The Arizona Department of Environmental Quality (ADEQ) hereby issues an Approval of Construction for the above-described facility based on the following provisions of Arizona Administrative Code (A.A.C.) R18-5-507 et seq.

On April 29, 2005, ADEQ issued a Certificate of Approval to Construct for the referenced project.

On May 18, 2005, Gregory H. Brown, P.E., certified the following:

- a final construction inspection was conducted on May 18, 2005;
